

FINANCE

From Study to Skills

The Rutgers-Camden degree in finance provides students with solid theoretical and practical knowledge of domestic and international finance in the areas of corporate finance, financial derivatives, investments, portfolio management, financial markets, and institutions. Graduates from the finance program are prepared to enter positions in corporations, financial institutions, brokerage houses, and investment banks, as consultants and entrepreneurs they enter government work as corporate finance officers, bank officers, and investment and credit analysts.

Finance focuses on all aspects of money management, borrowing, and fundraising. These individuals prepare financial reports needed to conduct operations and to satisfy tax and regulatory requirements. Finance graduates also oversee the flow of cash and investments, and develop information to assess the present and future financial status of an organization. The finance major provides a foundation for careers in a variety of fields including banking, insurance, corporate finance, securities analysis, consulting firms, brokerage houses, and real estate.

Related Fields: Accounting, Economics, Ecommerce Technology, Entrepreneurship, Human Resources, International Business, Management, and Marketing

Skills and Abilities

There are many skills and abilities that Finance majors gain throughout their studies at Rutgers-Camden. Here are some of the most important:
