

MANAGEMENT

From Study to Skills

The management major provides training in analyzing problems, making decisions, delegating assignments, training and supervising employees, budgeting, and coordinating. Management majors can pursue a specialization in general management, strategy/entrepreneurship, or ecommerce technology.

- The General Management specialization provides students with broad exposure to several management subfields.
- The Strategy/International Business /Entrepreneurship specialization provides training to be an entrepreneur in a global economy.
- The Ecommerce Technology specialization prepares students to develop skills necessary to help businesses compete and develop strategies for web-based interactions among companies, employees, customers, and suppliers.

This major provides the skills needed to secure an entry-level position, as well as the tools needed by top management to lead an organization. The management area encompasses operations, entrepreneurship, management information systems, strategy, and international business. Business Management positions can involve the management of people, projects, operations, or logistics. Individuals can train or specialize in a functional area such as accounting, marketing, finance, or human resources. Management students are encouraged to complete an RSBS Internship during their junior or senior year or take an international study in marketing course, which include study trips to Argentina, Brazil, France, or South Africa.

Related Fields: Banking, Business Administration, Finance, Human Resources, Information Technology, Law, Public Administration

Skills and Abilities

Critical Thinking Skills- Students will analyze problems and business conditions, learn budgeting, and understand economic, legal, ethical, and social issues relating to a business organization.

Leadership Skills- Students will require the ability to organize topics and create objectives, coordinate tasks and resources, make decisions, and show responsibility for tasks.

Communication Skills- Students will learn to work with and lead teams, motivate peers, and develop confident oral and written communication skills.
